## **DETAILED ACTION**

## Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - Claims 1-14, 19-25, drawn to transforming documents from a first format to a different second format, classified in class 715, subclass 513.
  - II. Claims 15-18, drawn to a Graphical User Interface (GUI) system for generating menus and icons classified in class 345, subclass 810.
- 2. The inventions are distinct, each from the other because of the following reasons:
- 3. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01).

Invention I is substantially directed to transforming documents from a first format to a different second format.

Invention II is substantially directed to a Graphical User Interface (GUI) system for generating menus and icons.

- 4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
- 5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).
